

DVJ/OOF CINEMIX SHOW

TECHNICAL NEEDS

SOUND & DVD

- 2 Pioneer CDJ 1000
- 1 audio mixer Rane TTM 57
- 2 monitor speakers
- 1 microphone
- All the audio & DVD cable (VGA)

In a case of the promoter can't provide the audio mixer, the artist can bring it for 200€.

OOF PROVIDES

- 1 MacBook Pro 15"
- 1 headphone
- 1 Mac video adapter

BEFORE THE SHOW

If anything is missing, please contact :
jais@pingpong.fr.

A solution can be found.

A minimum of one hour soundcheck is required with a technician. All the material has to be plugged and tested before our arrival.

SCREEN

A big screen of at least 3 meters high out of 4 meters long, or bigger, or several screens of this size. Needs to be large in comparison to the size of the venue and the audience be surrounded by the screens. If possible 3 screens : left, right & front.

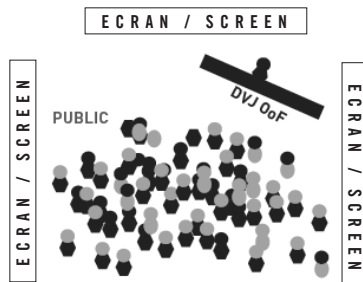

TABLE

One table of minimum 2,5 meters long and one meter large, 1m10 high (bigger is also ok). And a light to see the records in the dark.

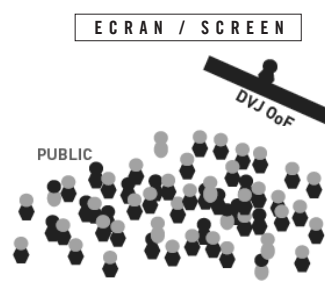

PROJECTOR

A projector of minimum 3000 lumens, more is always lot better. Beware of plugs in foreign countries (we have french plugs, 220Volts). Please check that all the set up is PAL & not NTSC.
